Dear Parent/Carer

Re: Sparx Maths Launch

This week we are launching SparxMaths.uk and all students will have access to complete their maths homework.

SparxMaths provides homework that is personalised, achievable and yet challenging for every student. Setting appropriately high expectations for all, irrespective of year group, confidence level or current working grade.

To be successful students are required to answer all their questions correctly by the end of each week. To support your child, SparxMaths provides students with help videos modelling an identical example to the question they require support.

Students will also continue to have an opportunity to seek help from their teacher before the deadline.

You will receive weekly emails and have access to a portal for parents so you can track your child's progress in Maths. This will support you to help your child with meeting the weekly expectations and to feel part of the learning process.

If you have difficulty in accessing Sparx Maths at home, please contact your child's maths teacher.

Logins and alternative tasks will be provided by your child's class teacher.

Thank you for your support with encouraging your child to use the homework platform regularly; if you have any questions, please do not hesitate to contact me.

Yours faithfully

A Kaminska-Smith

Mrs. Kaminska-Smith
Head of Mathematics
