

CDC/JDE  
14 April 2021

Dear Parents and Carers

Unfortunately, the issues with the water system at school will not be resolved until the end of Friday 16 April.

Following the power cut today, the three pumps that drive the water system have been damaged and need to be replaced. This has resulted in no cold-water supply to the services within school. We will be able to source and replace a pump which will make the system work by Friday afternoon.

We will keep you updated as to the situation via our website, ParentMail, Twitter and Facebook.

Whilst the building will be closed to staff and students, learning is expected to continue via live lessons on Microsoft Teams. Your children will shortly be receiving invitations from their class teachers.

Teachers will be taking a register for each lesson and we are expecting 100% attendance. If you are having difficulty in accessing the lesson it is essential that you email the teacher directly.

The experience during lockdown and the remote learning have prepared our students to fully participate within their lessons.

It is at times of challenge we get a measure of this community and I am always proud of its adaptability, resilience and determination to succeed.

Thank you all for your cooperation and understanding.

Yours faithfully

*C D'Cunha*
